**Subject:** FOIA request regarding Leviathan and Diamond X Ranch

Dear Ms. Gasaway,

I am the attorney at EPA Region 9 assigned to the Leviathan Mine Site. I have reviewed the request you submitted under the Freedom of Information Act on December 20, 2017 regarding communications between EPA Region 9 and the Diamond X Ranch from January 1, 2016 to the present.

I called your firm, Davis Graham & Stubbs LLP, to discuss the matter with you, and I was told you were not available today. I spoke to Adam Cohen instead. As you know, he is our regular contact on Leviathan Mine matters, representing Atlantic Richfield Company regarding that site. He assured me he was authorized to discuss the FOIA request.

I asked if we could interpret the request to relate only to communications *between* EPA personnel and Diamond X LLC and its representatives, thus excluding internal EPA communication. Adam said that would be fine, though the FOIA should also be understood to include internal memos recording oral and telephone communication between EPA and Diamond X LLC personnel and representatives.

I would appreciate your confirmation of this clarification of the request.

Also, I note that your request authorizes search and copying charges of up to \$500.00 and requests further contact if the charges are likely to exceed this amount. Our best estimate at this time is that the costs could be \$1,000. Please confirm your willingness to pay up to that amount for this FOIA response.

We are currently submitting a form for email search, which we have to provide to a central office. When we hear back from them regarding when they can perform the search, I will contact you with a projected FOIA response date.

Regards,

Josh
